

I am writing in support of SB 184 and HR 5262. SB 184 will extend the designation of Covid as a valid reason to use absentee ballots. We are not over this pandemic and for many people the risk and fear of the virus is real.

HR 5262 will further clarify the language regarding illness of the person and family and the hours that the voter is absent. These are helpful changes that will allow more voters to rightly use absentee ballots.

Let's lead the way in making Connecticut's election laws encourage citizens to exercise their right to vote. These are steps in the right direction

Thank you for your attention and for supporting these measures.
